¹ Interest rate based on credit score.

² The fixed rate will not change during the term. The current APR range for the period of January 1– June 30, 2026, is 4.34% to 8.21%.

³ The variable rate is subject to increase after consummation. The maximum variable interest rate is 18.00%. The variable interest rate that is charged to the borrower may change quarterly, may increase or decrease, and is based on an Index and Margin.

⁴ The variable rate is based on the spot "90-day Average SOFR" version of the Secured Overnight Financing Rate (SOFR) published by a source approved by the Alternative Reference Rate Committee during the following periods: December 21st through March 20th, March 21st through June 20th, June 21st through September 20th; and September 21st through December 20th. The spot "90-day Average SOFR" version of the Secured Overnight Financing Rate (SOFR) for the period September 21 - December 20, 2025 is 4.07% (Effective January 1 – March 30, 2026). Your rate will be calculated each quarter by adding a margin between 2.64% and 6.05% to the Index.
